ALLRED CAMPAIGNING IN MILAM

"Our Town"

by J. B. WHITE

Roger Babson, noted statistican, said in a recent address that the standard of living in the average family could be doubled, if people would avoid the waste of energy.

The American people have always had a reputation for wasting their resources. Not merely have they burned up vast quantities of forests, but the resources of human energy have been thrown away.

Every preventable accident is a waste of energy. An automobile driver hurries around a corner because he thinks his time is too precious to waste 30 seconds in cautious action. That moment of hasty action may cost him thousands of dollars.

Every fire loss is a waste of energy. If you are careless with a heater in your home, and your house burns down, thousands of dollars are wasted. You do not realize the waste if your loss is covered by insurance. But the people as a whole have to pay for it. When $500,000,000 a year is burned up in such losses, a large slice of the nation's energy is wasted.

Unhealthy living and dissipations waste energy. Many people feel their physical powers are unlimited. They are up late nights, they lose their sleep, they yield to various vices. The result is that physical deterioration begins at an early age, and their productive power is diminished. Their fun has cost them many thousands of dollars.

Anyone who is disgruntled with the conditions of human life on this globe and fancies he would like to fly to happier realms afar must now reconsider his decision. Contented or not, he will have to settle down and stay where he is. That is the conclusion to be drawn from the latest pronouncement of Mt. Wilson astronomers.

The planet Mercury, they say, is a mere sizzling cinder. The atmosphere of Venus is mainly carbon dioxide in which no animal could live. The temperature of Mars ranges from 60 above zero by day to 40 below at night. Jupiter and Saturn are enveloped in hydrocarbon gas and ammonia, deadly to human lungs.

So much for the possibilities of homesteading in our solar system; and, these cheerful fellows go on, it is not otherwise at greater distances, for one could travel the stellar systems 50 years at the speed of light and find no place for living as pleasant as this.

Philosophers have asked whether this is the best of all possible worlds. It may or may not be, but apparently it is the best of all existing worlds. You might as well decide, therefore to take it as it is. It will have to do. There is no place else to go.

Accept the world. As Carlyle said about the lady who accepted the Universe, "By Gad, she'd better."

* * *

Some people won't do any work for the community because they see no money in it. "What will I get out of it?" they ask, if they are requested to do something on some committee. Well, there is one thing they do get when they do such work, and that is the personal appreciation of all their neighbors. The little narow circle in which they once moved, is widened out so that everyone admires them.

And very tangible rewards come from such service too. People who give it find that others like to employ them or patronize them. The more a person gives himself to his community, the more people will root for him.

With three political parties taking to the air, the consensus is that the metal radio tube was not invented a minute too soon.

By saying nothing and looking open-minded, a voter can get himself counted in all these party majority predictions.

You will take notice, though, that these cynics who say life is not worth living very seldom commit suicide.

Hopes are held that a league circuit can be formed here and in other cities and a regular schedule announced. Mrs. Radtke said that for the present games are planned each week and that Temple will come to Cameron soon, possibly next week, to return the game

Bonus Aids Johnson In Race For Texas Rail Cimmission

H. O. Johnson, Harris County, world war veteran and mechanical engineer, and running on his bonus money, is a candidate for railroad commissioner. He polled over 140,000 votes two years ago, lost by a few thousand votes.

If elected he promises to enforce the law against discrimination as to pipe line service to producers. He also declares there is gas wastage in Texas and promises to check it. If there is to be a conservation and proration act, he says, proration should be enforced in all fields. He stands for appraisal of gas properties to lower rates. Reorganization of the truck and bus division is another plank in his platform. Forms of transportation must be co-ordinated, he believes. A new department should be created to have complete supervision over wild cat wells so as to protect the farmers and landowners from fraud.

10 COUNTIES RALLY FOR STATE CHIEF IN COUNTY

JIMMIE ALLRED

Jimmy Allred, governor of Texas, beaming with pride over the sparkling indorsement given him by Vice President Garner which means annointment by the Roosevelt Administration, brought his campaign for re-election to Milam county Wednesday night in an address at Yoe High Athletic field, that left nothing to be desired enthusiasm for the governor among his thousands of friends and supporters.

It was a ten county rally and thousands came from all sections of the country surrounding Milam whose historic political background has furnished dramatic settings for many notable Texas leaders. James Stephen Hogg, Joseph Weldon Bailey, Sam Houston, Lawrence Sullivan Ross, James E. Ferguson and others who have made political history in Texas, have found in Milam county an atmosphere of inspiring interest in politics. It was no less true of Texas' youngest governor who measured swords with his political enemies and gave back blow for blow in a masterful defense of his acts in the governor's office.

Taken to task for running about over the state and nation the governor pointed with pride to his part in selling Texas to the world and gave record denial of charges brought against him. Not all has been play with Jimmie. He's done a bit of hard

J. W. Carter, Milano, Deputy Sheriff And J. R. Wheeler, Railroad Officer, Arrest Negro Charged With Branchville Robbery

Additional details on the robbery of T. P. Morris, aged Branchville merchant, were obtained Wednesday morning from J. R. Wheeler, special agent for the Missouri Pacific lines in Taylor.

Wheeler, a former San Antonio police department detective, came to Milano and in company with J. W. Carter, deputy sheriff at Milano, they set out to capture the negro. They surrounded the negro in the Brazos bottoms near Valley Junction in Robertson county, and arrested him.

Mr. Carter said the negro had blood on his clothing and that a 50c piece found on him was blood stained. At the time it was not known how much money and the negro had taken from the Branchville merchant. When the negro was questioned by Wheeler and Carter he made a confession and said he had hidden the money in a pocket in a freight car which was then being pulled to Houston in a freight train. Carter and Wheeler then phoned to Houston and officers Ray and Chandler from the

Issues and Not Personalities Is Allred Plan of Campaign

Austin, July 14—Consistently holding his campaign on the plane of "issues rather than personalities," where he set it in his opening speech Governor James V. Allred continued his campaign for a second term in office through West and Central Texas this week.

His record as governor is the basis of his request for re-election Allred has told audiences already in North, East and West Texas. That same record will be cited by him to Central Texas audiences during the remainder of this week.

"The Allred record" includes: Inauguration of the first comprehensive social security program in the history of Texas, including, of course, old age assistance payments which began July 1 to more than 40,000 of the state's aged needy; an actual ad valorem tax reduction of 15c on the

$100 valuation that cut $4,787,400 from the tax bill of Texas taxpayers during 1935; advocacy of a natural resources tax increase, but limited so as not to handicap Texas products in the world market; establishment of a "clemency-by-merit-only" policy and of the voluntary parole board system as forward steps in convict rehabilitation work; righest appropriations for schools and rural aid in the history of the state.

In addition to citing the record of his past performances Governor Allred has also pledged in his speeches delivered during the last ten days that the social security program will be broadened to include unemployment insurance and other phases of social welfare, as well as old age assistance.

In his speech at Atlanta he assured the farmers that they will get their share of Federal agricultural benefit funds through a coordination of the state's agricultural program with that laid out in the Federal Soil Conservation and Domestic Allotment Act.

Governor Allred's itinery for the remainder of the week includes night speeches at Cameron Wednesday, at Austin Thursday, at Fort Worth Friday and at Waco Saturday.

Other visit will be made during the day while traveling between his night stops to: Wednesday, Mineral Wells, Reisel, Granger; Thursday, Rockdale, Lexington, Giddings and La Grange; Friday, Taylor, Hearne and Mexia and Saturday Hillsboro.

Although a rising tide of conviction that Governor Allred will be renominated in the first primary apparently is sweeping the state, that question of course will not be definitely answered before July 25.

Considered as significent, however, by Allred leaders is the rallying to his banner of many political powers who in the past have opposed Allred, and the appearance of large crowds and general enthusiasm that attended his progress through Northeast Texas last week and in West and Central Texas this week.

Numbered among recruits to the Allred cause are Roy Finley of Sherman, John W. Barnes of Paris and J. K. Brim of Sulphur Springs, the latter a former state Democratic executive committee chairman under the Ferguson administration. Mr. Finley, Mr. Barnes and Mr. Brim, presented Governor Allred to crowds in their respective cities last week.

"DO YOU LOVE TO HEAR THE STORY"

(By Sidney Hause)

I love to tell the story
Of unseen things above;
Of Jesus and His glory,
Of Jesus and His love.
I love to tell the story
Because I know it is true.
It satisfies my longing
As nothing else can do.

I love to tell the story,
'Tis pleasant to repeat—
What seems each time I tell it
More wonderfully sweet.
I love to tell the story
For some have never heard
The message of salvation
From God's own holy word.

I love to tell the story,
For those who know it best,
Seem longing and thirsting
To hear it, like the rest.
And when in the scenes of glory,
I sing the new, new song,
'Twill be—the old, old story,
That I have loved so long.

Laxative combination folks know is trustworthy

The confidence thousands of parents have in good, old reliable, powdered Thedford's Black-Draught has prompted them to get the new Syrup of Black-Draught for their children. The grown folks stick to the powdered Black-Draught; the youngsters probably will prefer it when they outgrow their childish love of sweets. Mrs. C. W. Adams, of Murray, Ky., writes: "I have used Thedford's Black-Draught (powder) about thirteen years, taking it for biliousness. Black-Draught acts well and I am always pleased with the results. I wanted a good, reliable laxative for my children. I have found Syrup of Black-Draught to be just that."

Bess Harris, for instance, boldly travels the "Sunset Trail" in a modern covered wagon, mustering into service Mr. Star, an Indian youth whose Hopi reservation is on the Centennial grounds, and pausing for refreshment at an old pump presided over graciously by Miss Yellow Spider. Mr. and Mrs. T. S. Donaldson Win Award For Most Attractive Home; McGuyer Station In Rockdale Most Attractive Filling Station

Highway awards for the most attractive places in Milam county will be sent to Mr. and Mrs. T. S. Donaldson of near Buckholts for the most attractive rural home on the highway and costing under $5,000.00; to the McGuyer Filling Station at Rockdale for the most attractive filling station in the county located on the highway in rural sections or in towns under 5,000 population; and to the Curry school for the most attractive rural school on the highway in the county.

A committee composed of Mrs. B. P. Matocha, O. C. Acrey and LaBertice Robinson toured the county on Friday to judge the various units.

The Donaldson home is located on Highway No. 36 between Pettibone and Buckholts. Its well kept premises caused the place to score high.

Very few rural schools of the county are located on state or federal highways, the survey showed, but the Curry school had done beautification work on its yards. It is well painted and has a playground equipment painted and well kept.

The McGuyer station in Rockdale, although a small building, has a pretty arrangement of flowers and shrubbery, background well kept and accommodations clean and convenient.

Awards are to be presented each year by the state and interested persons may keep next year's award in mind when landscaping their yards and caring for their buildings. If an award should be won three consecutive years, a permanent trophy will be presented.

Awards will be presented within the next few days to Mr. and Mrs. Donaldson, The McGuyer Filling Station and the Curry school.

Mrs. Ben F. Reichert of Cameron is Chairman of the Milam County state highway beautification work.

KEEP BABY AWAKE

Houston, Texas—Instead of the usual fight to get their baby to sleep, Mr. and Mrs. Claude McDaniel had the unusual experience recently of having to take extraordinary means to keep their 22-months old baby girl, Ruby Naomi, from going to sleep for hours. The child had taken by mistake a salve which contained a powerful sleep-producing drug and doctors advised against allowing the child to go to sleep for hours thereafter.

STEAL CORNERSTONE

Marumsco, Md.—While its Negro congregation worshipped inside, thieves stole the cornerstone from the church—the Ebenezer Methodist church. Evidently the culprits believed that money or other valuables had been placed in the cornerstone.

ENJOY KITCHEN COMFORT

Despite Summer Heat

The insulated oven on a modern gas range with its automatic heat control makes possible a cooler kitchen. Heat is kept inside the oven—where it belongs—to do more cooking on the same amount of gas. Automatic heat control does away with peeking into a hot oven to check progress of baking or roasting. Just set the dial, and without watching, your food will be cooked to a queen's taste. For kitchen comfort go modern with a new insulated gas range. Terms are low enough for any family to afford.

Safety Ideals For Car Drivers Plan of Gulf Company

To drive a million miles is something that is rarely achieved, except by only a very few persons. To drive that many miles without a major accident is even more more rare. To drive that distance without even scraping a fender seems almost an impossibility.

Yet B. W. Gibbs, a Gulf salesman of Collingswood, New Jersey, has just completed such a record. During nineteen years of driving motor vehicles in his work, Mr. Gibbs has covered over a million miles, over all kinds of roads, regardless of surface condition, without a single accident of any kind.

This unusual record is all the more remarkable because Gulf tabulates as chargeable accidents even such minor accidents as damaged fenders.

Gulf is deeply interested in safe driving, and is especially active in promoting safety ideals among the motoring public of America. It wants every motorist to be a safe driver, and in order to put in practice what it urges upon others, it insists that all employees who operate Gulf vehicles do so carefully and lawfully.

Do your share to reduce the number of automobile accidents in Cameron. Follow the emample set by Mr. Gibbs. Drive carefully, observe all traffic laws, and above all, give the other fellow some consideration.

Outward to the world goes your voice

Sidewalks end at the edge of town. Lawns give way to the open fields. But the telephone lines go on and on—gleaming threads of copper stretching out through the valleys and over the hills.

They carry your voice to the world.

This sweeping away of the old-time barriers of time and silence is one result of the staff work of American Telephone & Telegraph Co., the researches of Bell Laboratories, the skillful buying and manufacturing of Western Electric.

Without the developments and improvements these Bell System organizations have given the men and women who furnish telephone service here, your voice could hardly go as far, and as fast, for so little.

ROBBERY

(Continued from Page 1)

said that the robbery had been planned for some time and that on two occasions he had discussed with Wells the plan to rob the aged storekeeper.

On Saturday night he waited on a bridge where the path crossed a little stream on the way to the Morris home. The aged storekeeper holding a flashlight turned it in the direction of the negro who was only a few feet away. The engro said he picked up a large fragment of a brick and when the light flashed on him he threw the brick, striking Mr. Morris in the face. The merchant fell to the ground severely wounded. The negro said he went to the prostrate form held the hands back over the shoulders and ransacked his pockets, taking $35 in silver change and currency.

Leaving the merchant unconscious and bleeding he took the money and went to the home of Wells where he reported the success of the robbery. Earlier in the evening when he set out on his mission to rob the merchant, he declared he had discussed the details with Wells and upon his return showed the money to Wells, who advised him to bury it. He took the money and buried it in a woodpile and upon advice from Wells was to wait until agitation over the robbery subsided. They were then to divide up the money and Harrison was to leave.

When officers came to investigate the crime, Harrison said he became frightened and took the money going across the country beyond the Brazos to Valley Junction where he boarded a freight train.

The money was not found when the negro was arrested, but when questioned here by the district attorney, said he had dropped the money down a wall pocket in the box car. Officers wired and had the train stopped and the money recovered.

Mr. Morris was reported severely beaten. Although Harrison in his confession said he hit the aged merchant only one time, it was said by officers the nature of the wounds indicated the aged man had been beaten severely after he had fallen to the path from the first blow.

ALLRED

work and the record speaks for itself, he declared.

Critics of the governor have had little to say about the old age pension since checks began pouring into Milam county. The conclusion is that while the pension plan might have been better and included more people, the Allred administration is paying off and that is calculated to take the enthusiasm out of the argument that the administration has failed to pay the aged.

Governor Allred was a special guest at the banquet of the Lions Club on Wednesday evening. The banquet was served in the Ada Henderson School. E. C. Cole, Southern Pacific Agent, was toastmaster. A delegation of citizens from Rockdale were present. J. D. Baskin, war veteran, presented the governor at the Lion banquet.

A ten county political rally was held on Yoemen Athletic Field following the Lions banquet. T. S. Henderson, veteran political leader introduced the Governor. A short address was made by Ed Gunn of Rockdale. Other speakers on the platform were B. P. Matocha, Niley Smith, J. D. Baskin, R. L. Batte, Thorndale, S. C. Miles, Rockdale.

Wednesday afternoon Phillip Reid, cashier of the Citizens National Bank, J. D. Baskin and Tracy Hobson, met the governor at Granger and escorted him to Cameron.

police department there searched the car and found $36.36 tied in a rag and hidden in the car. The money was sent to Sheriff Kennedy in Cameron.

The attack on Mr. Morris was said to have been brutal and he was beaten after he had fallen to the ground from the first blow.

In his confession Coleman Harrison, the negro who is being held as the actual robber of the merchant, said after he left Branchville he walked to Valley Junction and was asleep in a box car when he wes awakened by officers Carter and Wheeler and placed under arrest.

A statement was obtained by Officers Carter and Wheeler from the negro and they telephoned Sheriff Kennedy to meet them at Milano.

Because of the refreshing relief it has brought them, thousands of men and women, who could afford much more expensive laxatives, use Black-Draught when needed. CERS IN WILD GAME VANQUISH IDEALERS

The Cameron Icers have ceased to in by a small margin. The Icers ard hitting club turned the artillery ose on the Cameron Idealers of Waco, Sunday and "latched them up" y a 11 to 2 victory. Munro and Olle tarted the scoring by hitting a ome run each in the first inning. The Idealers were about ready to oist a white flag after the Icers bat- ed around in the second inning oringing in seven runs to make the core 9 to 0.

Pete Dowling, the Icer center fielder, hit the third home run of the game in the second inning. Ed Olle, the Icer third baseman, rifled his second home run over the wall in the sixth. The Waco boys made a score in the 4th inning on Burleson's home run, and one in the seventh, but Darden Woffard held them too well for them to make much headway. Woffard allowed Waco seven hits, while Luders, the first five innings, and Ducey allowed the Cameron boys 13 hits. Woffard struck out seven men, Luders 2 and Ducey 2.

Score by innings—

Waco Idealers	000	100	100	—2
Cameron Icers	270	101	00x	—11

Home Runs: Munro, Olle 2; Dowling and Burleson of the Idealers.

The Cameron Icers will play a return game with the Cameron Idealers in Waco next Sunday. The Idealers had some absentees in their line-up last Sunday that they claim will be filled in Sunday. They will have revenge in their hearts for the Cameron Icers, so this should be a real battle. This will be the last game before the play off of the State Semi-pro tournament that starts in Waco on July 23.

Who Has Spread False Accusations?

DID BOB POAGE

Vote for or Against the Old People?

In a sheet signed by HON. FRANK B. TIREY, candidate for Congress he says:

"I shall appreciate the vote of every person, but shall not make or countenance the making of false accusations against or about my opponents to get votes."

Yet in almost every speech Mr. Tirey or his cohorts have made in the past ten days he and they have charged that Senator W. R. Poage was the author of the amendment to the pension law to deny pensions to old people with children able to support them. On last Sunday, the Waco News Tribune published the following account of Mr. Tirey's Valley Mills speech:

"Tirey cited the legislative record by book an dpage as proof that . . . Poage introduced an amendment to the old age pension bill which would require that the support children might be able to give to old age applicants be investigated before a pension should be granted. This amendment, Tirey said, was finally defeated.

That amendment would have meant, said Tirey, 'That if an old man applying for pension had a married son who had an extra room at his house, the state would tell the old man to go live with nis son, and could bar him from relief; no matter what the old man's daughter-in-law might think about it."

WHAT DOES THE RECORD SHOW?

Mr. Tirey, who says he would not countenance any false accusations against his opponents to get votes must have some other motive in mind because the very page which he quotes is found in the Senate Journal, Second Called Session of the Forty-Fourth Legislature, pages 27 and 28 and this record reads as follows:

'It shall be the duty of the Director to investigate the ability and willingness of the component members of said applicant's immediate family to assist in the support and maintenance of said applicant and to modify and adjust the assistance for such applicant in accordance with evidence found!

ONEAL POAGE"

On page 28 of the same Journal we find that the record shows that the amendment was adopted by a vote of 13 yeas to 11 nays with Poage voting yea. Thus we find that Mr. Tiery not only falsely accused Bob Poage of doing the very thing that Poage prevented, but also misrepresented the final action on the amendment in the Legislature. DID he do this "TO GET VOTES?"

WHO FOUGHT FOR THE OLD PEOPLE?

Bob Poage was one of the two men who actually STRUCK OUT the language Mr. Tirey complains of. If Mr. Tirey does not like what Poage did, he has a right to criticise, but LET HIM TELL THE TRUTH about what Poage did. The Shivers amendment (Page 25) later became the Senate Bill, and if it had not been for Senator Poage the bill would have contained the very language Mr. Tirey complains of. Bob Poage has been fair with the old people, and has not tried to misquote the record. Bob Poage voted for the old age pension and offered a natural resource tax with which to PAY THE BILL.

What has Mr. Tirey EVER done for the old people?

Was Mr. Tirey actuated by IGNORANCE or MALICE when he told the people that Bob Poage tried to do the very thing that Poage prevented from being done?

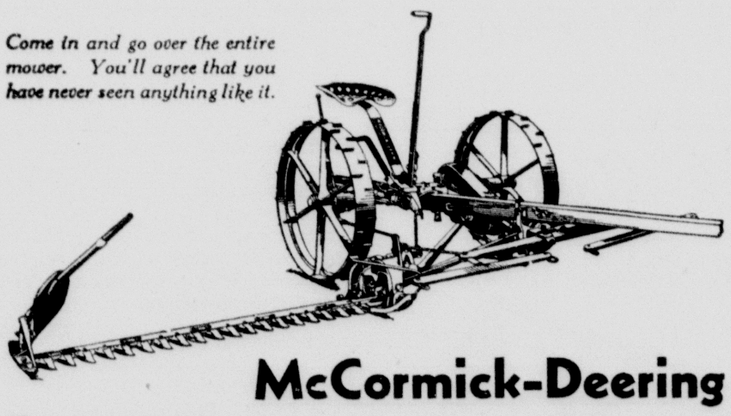
If Mr. Tirey was so ignorant of the effect of the Legislative amendments that he could not understand an amendment that said "the language TO BE STRUCK OUT being as follows . . . ." then he is too ignorant to properly represent this district.

If Mr. Tirey deliberately sought to deceive the people about the facts in this matter, can you rely on any other representations that he may make?

If he will make a misleading statement in this particular how can the people believe any of the mud, muck, and slime that he and his henchmen have been throwing at Bob Poage?

(Political Adv.)

Come in and go over the entire mower. You'll agree that you have never seen anything like it.



McCormick-Deering No. 7 Enclosed-Gear Mower

WE are anxious to have all of our friends see the New McCormick-Deering No. 7 Enclosed-Gear Mower. We think it is one of the finest pieces of farm equipment we have ever sold!

Everybody who has seen it says they never had any idea that a mower could be built as this one is.

For example: The entire operating mechanism, including drive gears, differential, and countershafts, is assembled compactly in an oil-tight gear housing and runs in a bath of oil. There are four high-grade roller bearings. Operation is so smooth and noiseless that you can scarcely hear the light hum of the sickle!

Special oil seals at the ends of the main axle and flywheel shaft, and the oil-tight gear box prevent leakage and protect all working parts against the entrance of dirt and other abrasive materials. Floating action of cutter bar provides ample play without disturbing knife registration.

PICK FISCHER FOR PLACE IN RUN-OFF

Dallas, Texas, July 14.—F. W. Fischer of Tyler, regarded by a majority of the state's newspapers as a virtual certainly for a position in the second primary to select a governor of Texas, reenters South Texas next week to close his pre-July 25 election campaign.

Fischer, just concluding his campaign in Central and East Texas, will speak in Dallas, Friday night, July 17, and Forth Worth Saturday night, July 18, before returning to the Houston and Beaumont area. His addresses in Dallas and at Houston the night of July 24 will be broadcast over a state-wide radio hook-up, embracing stations WFAA, Dallas, WBAP, Fort Worth, KPRC, Houston and WOAI, San Antonio.

First heckling of the gubernatorial campaign came during a recent Fischer talk at Waco where Allred men failed in an attempt to interrupt a rally which drew the largest crowd of any political rally in that city this year. The Allred representatives attempted to interrupt Fisher's speech with loud yells, but were booed away by a crowd of several thousand hearing the East Texan's address.

Fischer has repeatedly rapped the governor for "mis-statement" of the federal government's attitude toward the old age pension question in Texas. In refuting Allred's statements that Texas would not receive aid from Washington if all of the state's old people entitled to pensions were paid, as provided in the constitution, Fischer has pointed to a telegram in the House Journal at plains Texas' eligibility for federal Austin from a member of the federal Social security board which exfunds to needy persons regardless of how many others of the state's old people are paid.

Meanwhile, Fischer's program for adequate and fair taxes on the state's natural resources such as oil, naturl gas, etc., to defray expenses of the state government and pay the old age pension in full, continues to gain the endorsements of scores of candidates for legislature.

Cripples Ask Aid of Hopkins

Protesting against what they declare to be "discrimination" and an "unsympathetic attitude" on the part of WPA officials, a delegation of 35 New York cripples, representing the League for the Physically Handicapped, journeyed to Washington in an open truck and besieged the office of Federal Relief Administrator Harry Hopkins, to plead for jobs. He told them that if their complaints were justified, which he doubted, the wrong would be rectified.
